

Systemic/Family Constellation & Couples Workshops Maria Dolenc

Gestalt Therapist and Systemic/Family Constellation Practitioner

“Despite our greatest efforts some of us find ourselves struggling to live our lives fully or relate well within their families.”

They can experience powerful forces that thwart them in their lives and feel entangled within the dynamics of their family.

Entanglements in family dynamics can result in relationship difficulties between:

- partners
- parents and children
- siblings

They can also contribute to:

- addictions
- illnesses
- negative repetitive patterns in our lives

Constellation work is a process by which family dynamics are made visible. A participant selects people to represent his or her family members and places them into a position that reflects the participant's experience of his or her family. The dynamics of the family relationship can then be observed. The facilitator works in a highly respectful manner bringing into awareness any blocks that may be preventing love from flowing within the family system.
